

NEW

KAISER OPTICAL SYSTEMS INC.

RAMANRXN2™ Multi-Channel Analyzer and Seg-Flow® Integration

This new Sampling Interface Kit (SIK) allows the Seg-Flow® 1200 Plus or 4800 to integrate to a single **RAMANRXN2™** probe and connect this probe to a maximum of 8 bioreactors, providing a cost-saving alternative to using 8 individual Raman probes in a customer's process.

Seg-Flow® 1200 or 4800

RAMANRXN2™ Multi-Channel Analyzer

The **RAMANRXN2™** Can Measure:

- Glucose
- Lactate
- Viability
- Glutamine
- Ammonium
- Viable Cell Density
- Glutamate
- Osmolality
- Total Cell Density
