

ASR & ASR⁺

Enhance Seg-Flow's and Acquire's capabilities by withdrawing cell-free and cell-containing samples from a single channel

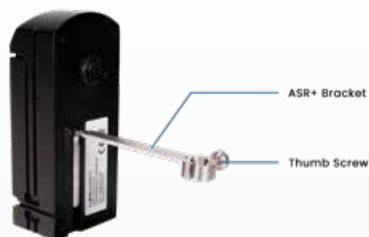

- Enables the extraction of sample from one additional location when connected to a Seg-Flow S3 or Acquire Sampling Systems
- Can be used to take both a **cell containing and cell free sample** from the same bioreactor with a single sampling stream
- Same fluid path cleaning mechanism used by Seg-Flow S3 and Acquire Sampling Systems
- Backwards compatible with S3 Seg-Flow

Accessories

ASR/ASR+ Stand

ASR/ASR+ Bracket

Tubing

Tubing Types

- Autoclavable
- Weldable
- Gamma Irradiation

Replacement Schedule

- Tubing should be replaced after every bioreactor run

Sizes

- 10 ft
- 25 ft
